Contents

1	Computer and Internet	1
1.1	Physics and Computer	1
1.1.1	Computer in Physics	1
1.1.2	Physics for Computer Development	1
1.2	Internet and Physics	2
1.2.1	Internet in Physics	2
1.2.2	Network Components	2
1.2.3	Computers and OS (Operating System)	2
1.2.4	Connection	3
1.2.5	Connection Purpose	3
1.3	Computer Programming	4
1.3.1	Programming	4
1.3.2	Fortran Language	4
1.3.3	C Language	5
2	Basic Mathematical Operations	7
2.1	Lagrange n -points Interpolation	7
2.2	Numerical Differentiation	8
2.3	Higher Order Differentiation	9
2.4	Numerical Integral	10
2.5	Finding Roots; finding Zero Points	11
3	First Order Ordinary Differential equation	13
3.1	Euler's Method	14
3.2	Using Extrapolation	14
3.3	Using Interpolation	15
3.4	Runge-Kutta Methods	15
3.5	Stability	16

4	Boundary Value and Eigenvalue Problems	17
4.1	Numerov Algorithm	18
4.2	Green's Function Solution; Boundary Condition	19
4.3	Eigenvalue Problem	21
5	Special Functions and Gaussian Quadrature	23
5.1	Special Functions and Recurrence Relations	23
5.2	Gaussian Quadrature; Integral using Special Function	27
6	Matrix Analysis	29
6.1	Matrix Inversion	30
6.2	Eigenvalue Problem	32
6.3	Inverse Vector Iteration	33
6.4	Damped Gradient Iteration	34
6.5	Lanczos Algorithm	34
7	Discretized Grid Space in Higher Dimension	37
7.1	Discretization and Variational Principle	38
7.2	Boundary Value Problem	39
7.3	Iterative Gauss-Seidel Method	40
7.4	Gaussian Elimination	40
8	Monte-Carlo Simulation	45
8.1	Monte-Carlo Method	45
8.2	Metropolis Algorithm	47
9	Computer and Experiment	49
9.1	Computer in Experiment	49
9.2	Connection of Computer and Experimental Equipment	49
10	Data Analysis	55
10.1	Mean Value and Standard Deviation	55
10.2	Chi-Square Fitting and Error Analysis	58
10.3	Fast Fourier Transform (FFT)	62
10.4	Wavelet Analysis	64
11	Text Editing and Graphics for Reports	65
11.1	Graphics	65
11.2	Text Editing Program	65

<i>CONTENTS</i>	vii
11.3 Presentation	66
A Unix Commands	67
B HTML Commands	71
C Fortran Commands	77
D C Commands	81
E LaTeX	87
E.1 Basic Structure of LaTeX File	87
E.2 LaTeX Commands	89
E.3 Sample LaTeX	101
